Mr. Heintz left personal property to the amount of \$20,000. That he should have many debts was a surprise to those who knew him. When Mr. McMahon made the second payment of \$10,000 it was rumored that he was being backed by a syndicate of capitalists. The above clause from Mr. Heintz's will, in connection with the close relations which had existed between Heintz and McMahon, gave rise to the belief that the former was interested in the syndicate and that the speedway was originated mainly for the purpose of allowing certain persons to get suddenly rich. It was well known in the annexed district that since Mr. Heintz began his public career he had spent more than \$100,000 in securing and holding his power.

began his public career he had spent more than \$100,000 in securing and holding his power.

The people interested found several things that connected Mr. Heintz and his followers with the land syndicate which was to grow rich out of the speedway. Mr. McMahon was counsel for the zichler Brewing Company, in which Mr. Heintz was interesced; he was Tressurer of the North Bide Printing Company, and he in Heintz was interesced; he was Tressurer of the North Bide Printing Company, and he was Tressurer of the Campaign Committee which elected Mr. Heintz. Judge W. G. McCrea, of the Tenth District Civil Court, who owed his appointment to the bench to Mr. Heintz, was a strong advocate of the proposed speedway, and he owns nearly a block of land bordering on the route propose. Other persons supposed to be interested were John H. J. Konner, Deputy Commissioner under Mr. Heintz, and Louis A. Blesse, Chief hagineer.

These charges of a "deal" among the politicians were made after as alleged conversation between Mr. Heintz and Henry Milans, the editor of the Advocate, was made public. About five months before Mr. Heintz ded Mr. Heintz said; "From the time I was bominated on the People's ticket in 1890 I tegan to put my hand it my pocket to meet the expenses of my campaign. Since that time I have spent a little over \$100,000. I propose from now on to make money, not to spend!."

They were duly appraised, and when John McMahon, a lawyer living in the wenexed district, offered Thomas A. Wolf, the owner, 130,000 for 100 of them the offer was accepted. The terms of the agreement were that Mr. McMahon should pay \$10,000 in cash and the balance in equal instalments of 10,000 at intervals of three months.

If we are going to have free trade poor dressmakers should not be made to pay duty, and it we are to have protective tariff, I believe in making the society as well as the trades people pay the legal rate."

A man dressmaker took a more businesslike view of the situation.

The Bradley-Martins have never bought-anything in New York but table supplies. This is a free country, and I believe in allowing people to do as they like. I consider, however, that the received orders for supplies, but aside from those three firms nobody in business was benefited. This is contrary to the general supposition that the masses profit by the extravasgances of the wealthy. I saw the wedding, and all the wedding outlits, and I have no hesitancy whatever in saying that there was nothing in texture, style or cut

"The bride's dress could have been made by any one of the thousand dressmalters in the city, and no difficulty whatever would have been found in buying the material in town. Of course, the cost would have been considerably larger, perhaps 70 per cent., due to the tax on importations and the difference in the price of labor. In London and Paris a skilled sewer gets 130 a month; we are often obliged to pay that much a week. But that is neither here nor there. The Bradley-Martins like foreign made watches and trousseaus; they like English trained servants; they like British trained servants; they like British life and British customs. They have the money to indulge these fancies—call them fads if you prefer—and 1 can't see that it is anybody's concern but their own. When a born American becomes an angiomaniac he ceases to be an American according to my judgment."

the working girls brought it up at the club, and some of the remarks were more pointed than pleasant.

The feeling among the modistes and lingeric shopkeepers, who make a specialty of imported models and foreign novelties, is most bitter. One of these women, who has been in business for the last twenty-five years, thought it "most disloyal that the moneyed women of America should be so indifferent to the interest of the working women as to patronize foreign industries to the detriment of home production.

That is not uncommon. It is a general mistake (?)."

A smaller importer denounced the "whole 128 trunks of the Martins as perfectly disgusting." Her indignation was so violent that she did not allow the family either the first half or the hyphen in their name.

"I have only been in business three years, but the moment I reach the custom-house my trunks are overhauled and I am obliged to pay for everything. The Appraiser on board has a comforting way of turning to the back of his memoradium book, and, after a giance over a page, remarking: 'Now, Mrs.—don't let us have any unpleasantness this time.
